

Advocates for
Human Potential, Inc.

Provider Affiliations: Community Partners in Business, Technology & Quality Services

Ron Kercheval

Innovation Key Concepts

- ***Discontinuity & Disruption*** (P. Druker)
- ***Instability*** (A. Toffler)
- ***Decay & Irrelevance*** (G. Hammel)
- ***Tipping Point*** (M. Gladwell)
- ***Strategic Inflection Point*** (A. Grove)
- ***Value Migration*** (A. Slywotzky)
- ***Disruptive Innovation*** (C. Christensen)

Why Form Provider Networks?

- **Integrate Fragmented System**
- **Consolidate & Simplify Administration**
- **Consolidate Revenue Management & Position for Reimbursement Reforms & New Methodologies**
- **Standardize, Collect & Measure Outcomes**
- **Decrease Operating Costs**
- **Improve Access to Care & Services**
- **Enhance Continuity of Care**
- **Standardize & Optimize Quality**
- **Develop the Workforce**

What to Expect? More...

- **Emphasis on Mission-Critical IT Infrastructure, Certified Systems, & Meaningful Use**
- **Aggressive Contracting with Commercial Payers & Discounts**
- **Managed Care & Utilization Review**
- **Medication Assisted Treatment (MAT)**
- **ACOs & Patient-Centered Medical Home (Health Home) Models (Integration & Consolidation)**
- **Care Coordination & Medical Case Management**
- **Standardization of Practice Guidelines**

More...

- **Complex Coding & Electronic Billing (EDI)**
- **Demand for Data Management & Reporting**
- **Competition**
- **Integration**
- **Merger & Acquisition**

Demand for...

- **Stronger Business Acumen**
- **Aggressive Strategic Planning**
- **Accelerated Business Modeling**
- **Subject Matter Expertise**
- **Resources & Capabilities to Execute**
- **Affiliation, Joint Ventures, Mergers & Acquisitions – Strength in Numbers!**

What Problems Should We be Solving?

- 1. Complexity & Variation: Multiple Payer Systems, Enforcing Disparate Code-Sets & Applying Different Business Rules with Varying Approaches to Reimbursement**
- 2. Changing Business & Regulatory Environments**
- 3. Increased Competition & Medicalization**
- 4. Demand for Integration & Consolidation**
- 5. Selecting & Implementing IT**
- 6. Access to Sufficient subject matter expertise**
- 7. Access to Capital**

Integration

Vertical Integration

- Unify the Supply Chain Under One “Roof” or “Umbrella”
- Each “Link” in the Chain Produces a Market-specific Service that Satisfies a Common Need, Coming Together for a Single Service Experience
- Examples: Apple, Google, Amazon, FedEx

Horizontal Integration

- Strategy for Increasing Market Share by Associating with, Merging with or Acquiring Like Companies in Adjacent or Overlapping Markets
- Unifying Marketing Capabilities to Present a Common Brand Image

Provider Affiliation or “Network” Models

- **Independent Practice Association (IPA)**
- **Management Services Organization (MSO)**
- **Administrative Services Organization (ASO)**
- **Technology Services Organization (TSO)**

Critical Success Factors

- **Credibility & Reputation of Participants**
- **Trust & Collegial Relationships**
- **Alignment of Financial Incentives**
- **Adequate Time for Implementation**
- **Professional Management & Access to Expertise**
- **Financial Plan & Access to Capital**

Common Concerns

- **Insurance Laws (Being Careful NOT to Become a Licensed HMO)**
- **Anti-Kick-Back Laws (& Anti-Referral Laws)**
- **Anti-Trust Laws (Observing Price-Fixing & Monopolies)**
- **Reimbursement (Cannot Bill for Centralized Services)**
- **Discontinuing Relationships (Survivability of Contracts)**

MSOs cannot bargain collectively on behalf of its provider members per Anti-Trust laws. Only IPAs can do that

IPAs regulated by State Department of Insurance Commissioner

MSO

Centralized services can be paid for by providers on a flat monthly subscription/dues basis, per transaction or "pay-as-you-go" basis, or a "fair share" basis based on size, revenues, numbers of employees or numbers of patients served basis

Member Providers

Agree to subscribe to centralized management & administrative services. Could be spun off as a for-profit or non-profit.

IPA

- Insurer/Managed Care Negotiations & Contracting
- Fee Schedule Negotiation
- Actuarial Analysis
- Assumption of Financial Risk (capitation)
- Benefits Management

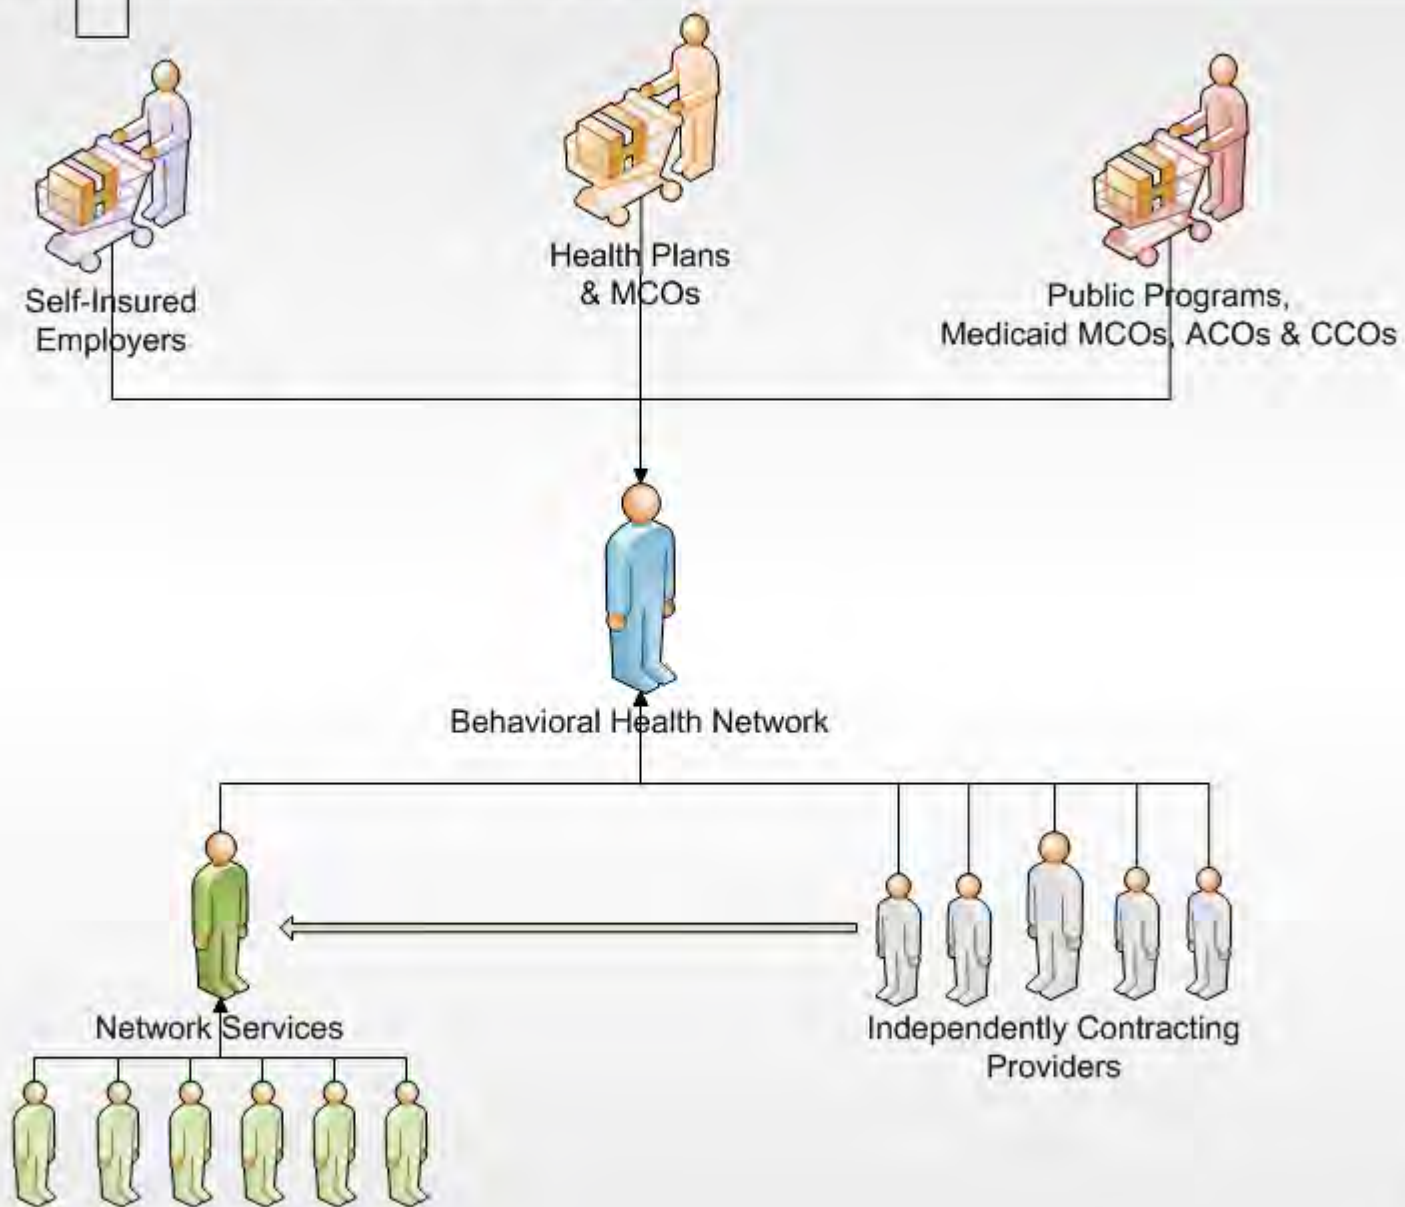

Payers of all kinds contract with specialty/preferred provider networks like behavioral health ASOs. Behavioral health providers can explore a variety of models including those that are strictly about pre-negotiated discounts on fee-for-service as well as models that involve more comprehensive managed care services, partial risk on claims, full-risk capitation, sub-capitation or Global Payments on behalf of participating providers.

Revenue can also be generated by leasing the network on a *per member per month* admin fee basis in relation to Medicaid MCOs, ACOs and CCOs, MBHOs, health plans and employers. These models may eventually explore risk-based contracts though may want to start with performance-based contracting.

Provider Network Development Cycle

Ability to Manage Reimbursement Reforms

Options

- Practice Management
- Credentialing
- Billing
- Information Technology
- Quality
- Human Resources
- Standards of Practice
- Call Center
- Case Management
- Strategic Planning
- Marketing Function
- Public Relations
- Work Force Development

Option A:
Join an Existing MSO

Option B:
Build an MSO of Your Own,
Outsourcing **SOME**
of the Functions

Option C:
Build an MSO of Your Own,
Outsourcing
ALL of the
Functions

- *Plan*
- *Budget*
- *Vendor Evaluation*
- *Vendor Selection & Contracting*
- *Implementation Support*

ALL of the
Functions

- *For-profit?*
- *Non-Profit?*
- *Staff & Office Space?*
- *Open to New Members?*
- *Closed network?*

Implications: Start-Up & Ongoing

1. IT/IS infrastructure – Expert Staff, Hardware, Software (MIS), Implementation, Training, Information Exchange/EDI, & Telecomm
2. Compliance – Legal, Technology & Operational Subject Matter Expertise
3. Quality - Software, Reporting Tools, Staff, P&P
4. Licensure & Legal - TPA, MCO, Contracts, Risk Management.
5. Accreditation - CARF, JCAHO, URAC, NCQA
6. Capital, Risk & Reserves - Stop-loss/Reinsurance (Underwriting, Actuarial Subject Matter Expertise (for IPAs) & Financial Systems/Data Warehouse)
7. Structure & Governance - Executive Team, Board, Management, Staff, Provider/Member Committee.
8. Bricks n' Mortar - Office Space, Call Center

10 Common Problems

- 1. Lacking Strategic Focus & Vision (&/Or Passive Disagreement).**
- 2. Mission Misalignment.**
- 3. Not Focusing on Building the Appropriate Culture Necessary to Support the Change Process.**
- 4. Eroding Goodwill Between Partners.**
- 5. Difficulties Related to Autonomy Versus the Direction of a New Business Entity.**

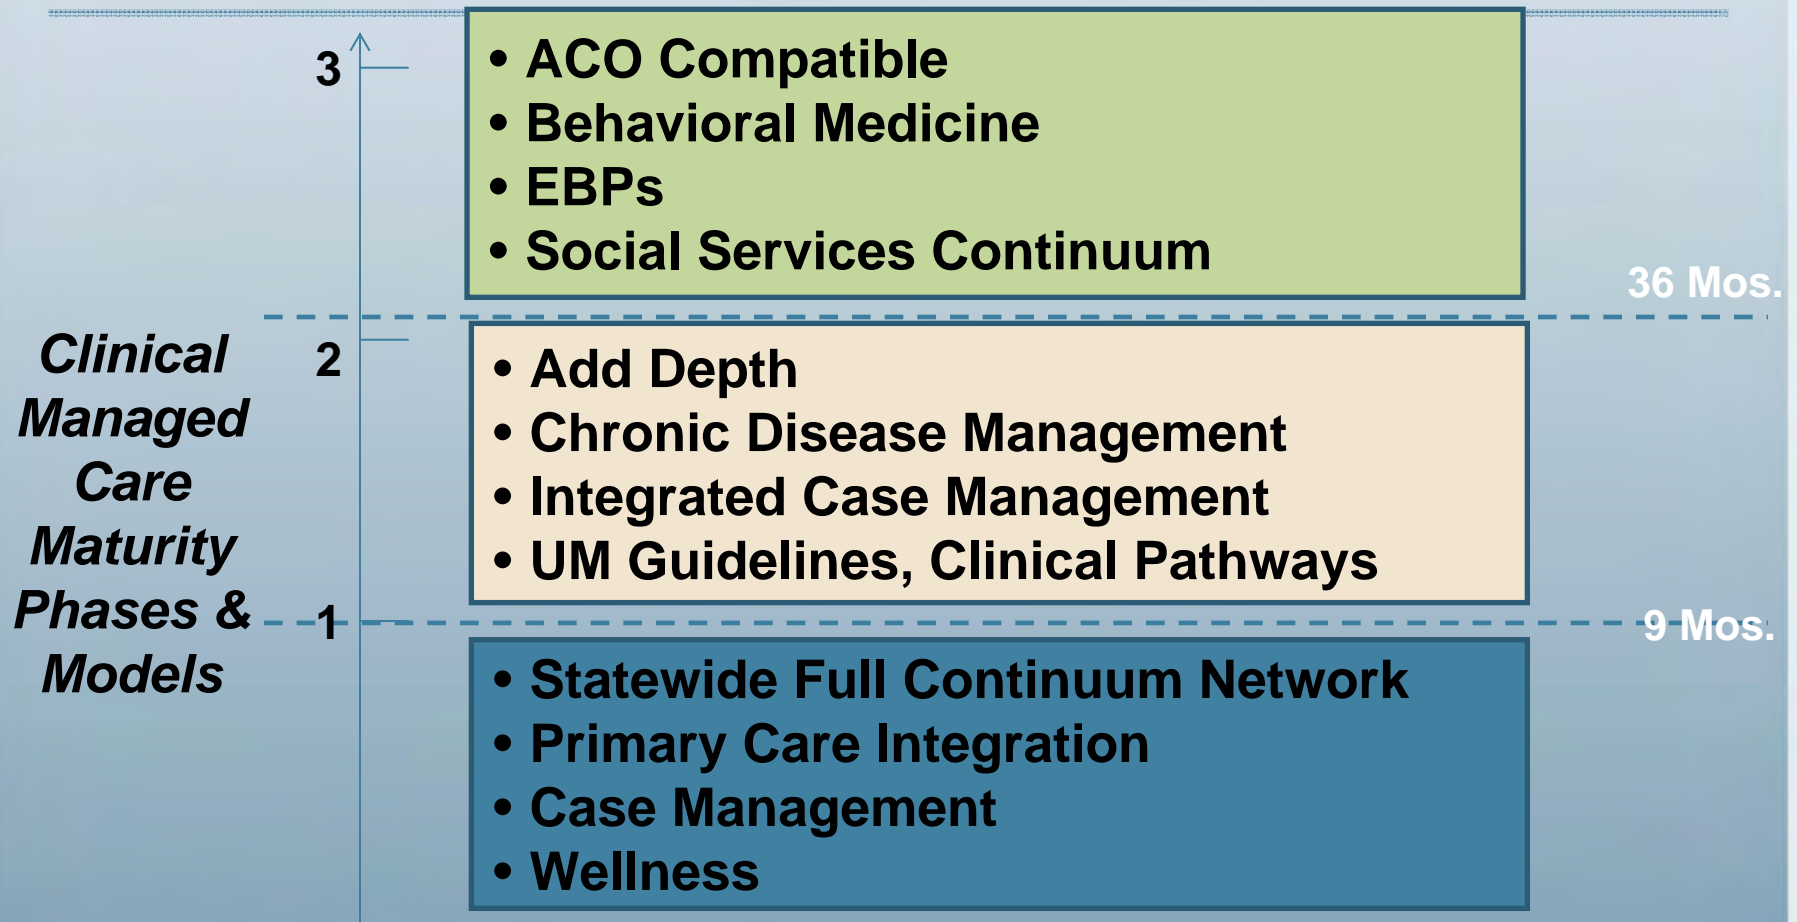

10 Common Problems

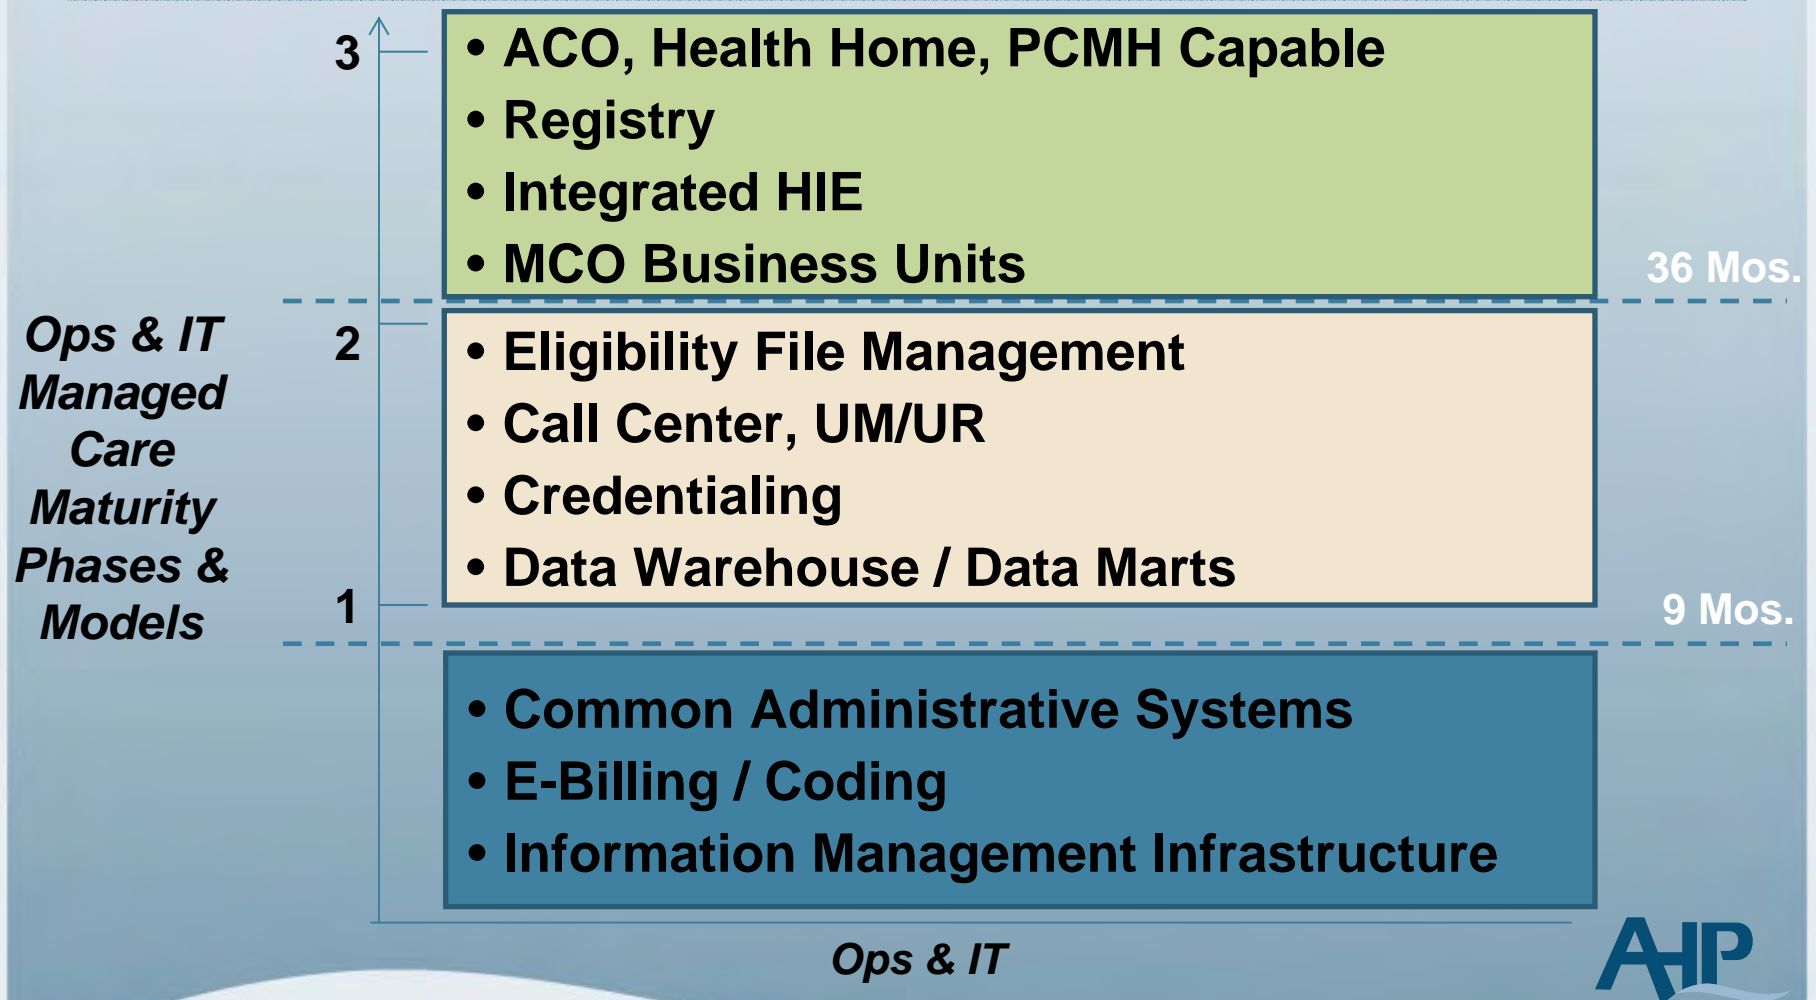

- 6. Failing to Clearly Establish Quality & Other Criteria for Membership**
- 7. Failing to Anticipate Difficulties of Contracting with Providers Outside the Immediate Network.**
- 8. Trying to Implement a Business System Transformation without a Good Business Plan to Provide Guidance.**
- 9. Operational, Administrative & Clinical Misalignment.**
- 10. Failing to Conduct the Due Diligence Necessary to Select IT Products Adequate for the Demands of the Environment.**

Network Development: Milestones & Timeline

Maintaining a Network Vision

- 1. A Network is a New Business Venture**
- 2. A network is Likely Going to Entail a Joint Venture Business Model**
- 3. Starting a New Business Requires Commitment of Time Measured in Years**
- 4. Starting a New Business – Propping up a Network – will Require Significant Investment of Cash**
- 5. Starting a New Business like a Network Requires Dedicated Leadership, Management, Coordination & the Guidance of Subject Matter Experts**

TECHNOLOGY INFRASTRUCTURE

Technology Dimensions

Software	Hardware
Interface & Exchange	Aggregation, Analysis & Reporting

Technology Dimensions

Hosting Services

- Server Administration
- Operations
- Connectivity
- Disaster Recovery
- Hardware & Operating Systems Upgrades

ASP Services

- Software Patches, Upgrades & Maintenance
- User Support
- Training
- Implementation
- Reporting

Electronic Data Interchange (EDI) & Health Info Exchange (HIE) Services

- Data Integration Mgmt
- Data Warehousing
- RHIO Participation
- Transaction Processing
- Business Intelligence

Consulting Services

- Strategic Planning
- Process Improvement
- Help-Desk
- Email
- Office Automation
- Project Mgmt

ASP Services

- **Key benefits include expert Applications Support, System Configuration Management, Help Desk Management & Software Upgrade Support.**
- **Sample Services:**
 - ✓ **Software Maintenance – Application Configuration, DBMS Management, Management of Software Patches & Major Software Upgrades for Hosted PSO-Standard Applications**
 - ✓ **User Support – Problem Resolution & Vendor Liaison Support for Hosted PSO-Standard Applications**
 - ✓ **Application Training – End User Training for Hosted PSO-Standard Applications**

ASP Services

- **Key benefits include expert applications support, system configuration management, help desk management & software upgrade support.**
- **Sample Services:**
 - ✓ **Implementation Support – Project Management Associated with the Installation & Implementation of Hosted PSO-Standard Applications**
 - ✓ **Report Development – Analysis, Design & Development of Application Based Reports for Hosted PSO-Standard Applications**

EDI/HIE Services

- **Key Benefits Include Access to a Central Technology & Support Organization to Implement & Manage Health Information Exchange Activities.**
- **Sample Services:**
 - ✓ **Data Integration Management – Planning, Management, Implementation & On-Going Monitoring of Interfaces & Data Integration Tools Including Interface Engines & ETL Tools**
 - ✓ **Data Warehousing – Development of Data Warehouse/Repositories & Associated Interfaces/Extracts**
 - ✓ **RHIO Administration – Coordination & Planning with Data Sharing Partners**

EDI/HIE Services

- **Sample Services:**
 - ✓ **Transaction Processing – On-Going Operations, Management, Monitoring, Maintenance & Problem Resolution for EDI/HIE Transactions**
 - ✓ **Business Intelligence– Analysis, Design & Development of Reports, Portals & BI Tools**

Consulting Services

- **Key Benefits Include Access to More Cost-effective IT Professionals on an As-Needed Basis to Enhance Members' Existing IT Resources**
- **Sample Services:**
 - ✓ **Planning – Strategic Planning, Needs Assessment & Product Evaluation**
 - ✓ **Operations Improvement – Business Reengineering & Operations Improvement Associated with PSO-Standard Applications**
 - ✓ **Help Desk Support – Receipt, Triaging, Logging, Dispatch & Tracking of Service Requests**

Consulting Services

- **Sample Services:**
 - ✓ **E-Mail Support – Administration & Maintenance of Email Accounts**
 - ✓ **Office Automation Support – Administration & End User Support for Hosted Office Automation Applications (e.g., Word Processing, Spread Sheets & Publication Software)**
 - ✓ **Project Management – Planning & Oversight of IT Related Projects (e.g., Product Selection & Implementation)**

Examples

- **Community Health Access Network (CHAN)**
 - CHCs in New Hampshire
 - Technical & Application Support Services for E-Mail, Internet Access & 3 Software Applications: EMR, PMS, Finance
- **Health Choice Network (HCN)**
 - Florida-Based, CHCs & Other Providers in 10 States
 - Strategic Planning, Application Hosting, Network Administration & Various Other IT Services.
- **Council of Community Clinics (CCC)**
 - CHCs in San Diego & Imperial Counties
 - Project Management, Application Hosting, Network Administration & Various Other IT Services

Examples

- **Oregon Community Health Information Network (OCHIN)**
 - State of Oregon, CHCs in Oregon/California, CareOregon, & HRSA
 - ASP support for EPIC EMR & other IT services
- **Community Health Center Association of NY State (CHCANYS)**
 - More than 50 CHCs throughout New York State
 - Funding advocacy, best practice collaboration, vendor coordination, & IT leadership & direction of New York Health Choice Network (NY HCN)
